Their patience has made us secure.  
Their assistance has made us stronger.  
Their affection has made us feel  
wanted.

Our desires were their goals.  
Our success was their accomplishment.  
They were the bridge to the greater  
thing;  
They were the path to our final  
goal.  
They are, and ever shall be, our  
champions, our heroines, our  
friends.

OFFICE OF THE SUPERINTENDENT

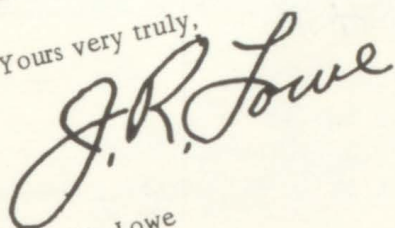

September 1956 - May 1957

The Student Body  
Athens High School

Since September 1956 marks the beginning of activities in your new high school building, your 1956-57 annual will become a great treasure in time to come. Students are to be commended for their fine attitude and excellent cooperation during this year of orientation.

To the seniors go our best wishes for success and happiness. As the years pass, it is our hope you will not forget our interest in you and that you will visit us often.

Yours very truly,

J. R. Lowe

OFFICE OF THE PRINCIPAL

To the Students of Athens Junior-Senior High School:

Just as this well-prepared annual seeks to provide a storehouse of treasured memories for the future, may each of you seek to make your present and future lives a storehouse of continued learning, enriching experiences, and useful service. If you will sincerely strive to do that, the words of the great poet, Robert Browning, will be just as true for you as they have been for countless thousands since the day he first wrote them:

"Give to the world the best that you have, and the best will come back to you."

Sincerely,

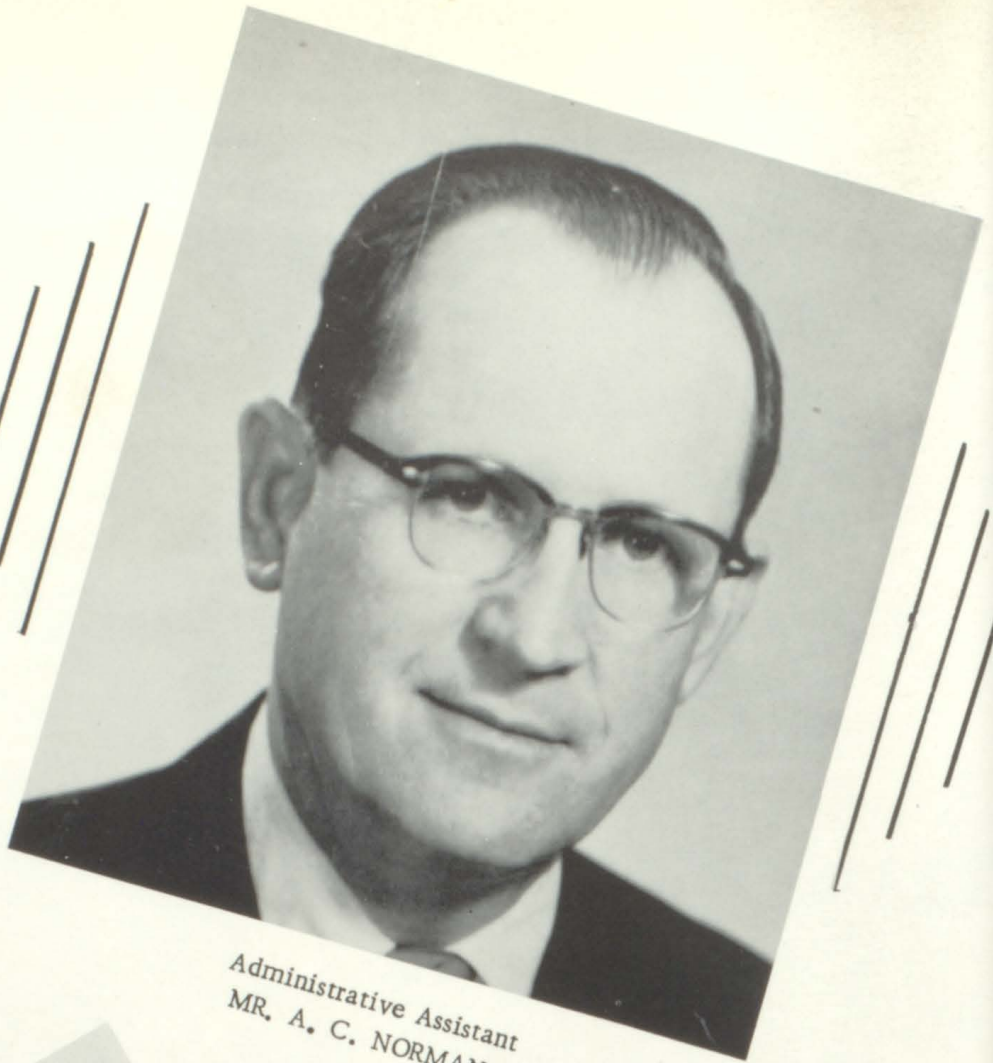

*G. E. Fluker*

for *bonus heat*\*

— cook *Electrically!*

Visit your  Appliance Dealer  
... and see!

Yes, you get bonus heat on top of the stove as well as in the oven when you cook electrically. \* What is "bonus heat?" It's the heat that remains in the electric element after the switch is turned off. It's the free heat that continues to cook until the element cools off.

An electric range oven is insulated on all six sides. As a result you get bonus heat every time you use your electric range because you cook with the electricity off much of the time.

You also get extra dividends when you cook electrically because of the economies in cleaning materials, laundry and decorating expenses.
