## Battle of Classes

Lisa H., Karen C. and Lisa H. find out the blowing bubble contest is frustrating along with Randy Hinds. Greg A. really concentrates on those tires. Sherri C. just knows she's going to be able to blow that bubble soon.

Show 'em Randy!

The Bug Relay takes joint effort as Mike, Pydi, Jeff and others find out at Battle of the Classes Day.

Keith must get that drink down before he can take off.

## Battle of the Classes

This is the day that all the students look forward to at Cross Roads School. It is the final determining factor to see who wins the day of fun. This year's winner, the Senior Class, got to go to Cain Center to spend a day swimming, etc.

It's a day when all students from all high school classes get together and put forth their best efforts to try to prove their class the best. Other factors like grades, attendance, citizenship, etc. have already counted towards the winning points.

We've all got to do this together, 1, 2, 3.

Now, to find out who can throw those Cow Patties the farthest.

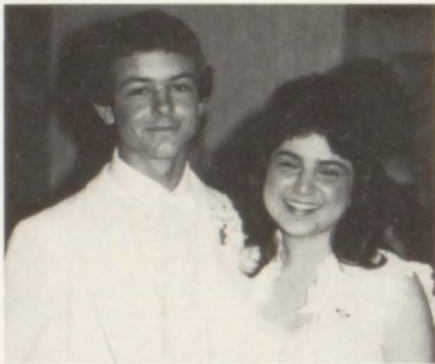

Some of the faculty just keep an eye on things. This is real entertainment.

## Graduation Day

*Today we'll start a new life  
 And we'll say our last goodbyes  
 To all the friends we've grown to love  
 With whom we've laughed and cried.*

*Remembering the fun and laughter,  
 The problems and the fears,  
 And watching all our memories grow  
 Throughout our high school years.*

*The memories of the dances  
 And the new friends that we've met,  
 Vacations, teachers, talking  
 And exams we'd rather forget.*

*Yes, high school days are precious but brief,  
 Where all your dreams come true;  
 It is not the end, but the beginning  
 Of a life we'll start anew.*

## You can help.

You've heard a lot about the need to conserve electricity and all forms of energy. Not only does conservation help save our nation's precious energy resources, it helps you and your family save money since the cost of energy is a big chunk out of most families' budgets. You can help your family by doing your part . . . make sure you close doors and windows when the heating or air conditioning unit is on; don't "graze" when you raid the refrigerator — know what you want before you open the door; hot water takes energy — try a shorter shower; and make sure the television or stereo is off when you're through with it. Work with your family to save energy now . . . you'll help make sure there will be enough for everyone when you start a family of your own.
