Gentlemen

Your favor of yesterday to hand and contents noted, In reply I beg to state that I have only one proposition which I have left, unsold. This will be composed of small tracts part of which I have already purchased, and will make about six to seven million feet, The nearest point to rail road is about three and one  $\frac{1}{2}$  miles the farthest away is about six miles. If you think this will suit your party I will show it to him at any time. Thanking you for the favor and wishing you continued success I am,  
Very Respectfully,

*J. D. Freeman*
